OVERVIEW

AI Prime Group is a global trading platform dedicated to providing secure, fast, and transparent access to international financial markets. Beyond forex, our platform offers wide access to stocks, commodities, cryptocurrencies, and indices, enabling traders to diversify strategies and participate in multiple global markets from a single, unified environment.

We provide a professional trading ecosystem designed to support both new and experienced traders through reliable execution, competitive trading conditions, and efficient account management. Our focus is on delivering a seamless trading experience powered by advanced infrastructure, responsive support, and a strong commitment to operational integrity. At AI Prime Group, we strive to create a trusted space where traders can engage in global markets with confidence, clarity, and flexibility.

VISION & MISSION

✓ Vision Statement

To establish AI PRIME GROUP as a trusted global trading platform known for reliability, transparency, and consistent performance across multiple international financial markets.

✓ Mission Statement

To deliver a reliable trading platform that supports traders with secure access, transparent operations, and stable performance across forex, stocks, commodities, crypto, and indices.

KEY DRIVERS OF AI PRIME GROUPS

▶ Smart Technology

Advanced trading infrastructure ensures ultra-fast execution, low latency, and stable performance, enabling traders to act confidently in dynamic global market.

▶ Trader-centric

Platforms, tools, and services are designed around trader needs, combining usability, analytics, and flexibility to support informed decision-making at every level.

▶ Trust & Security

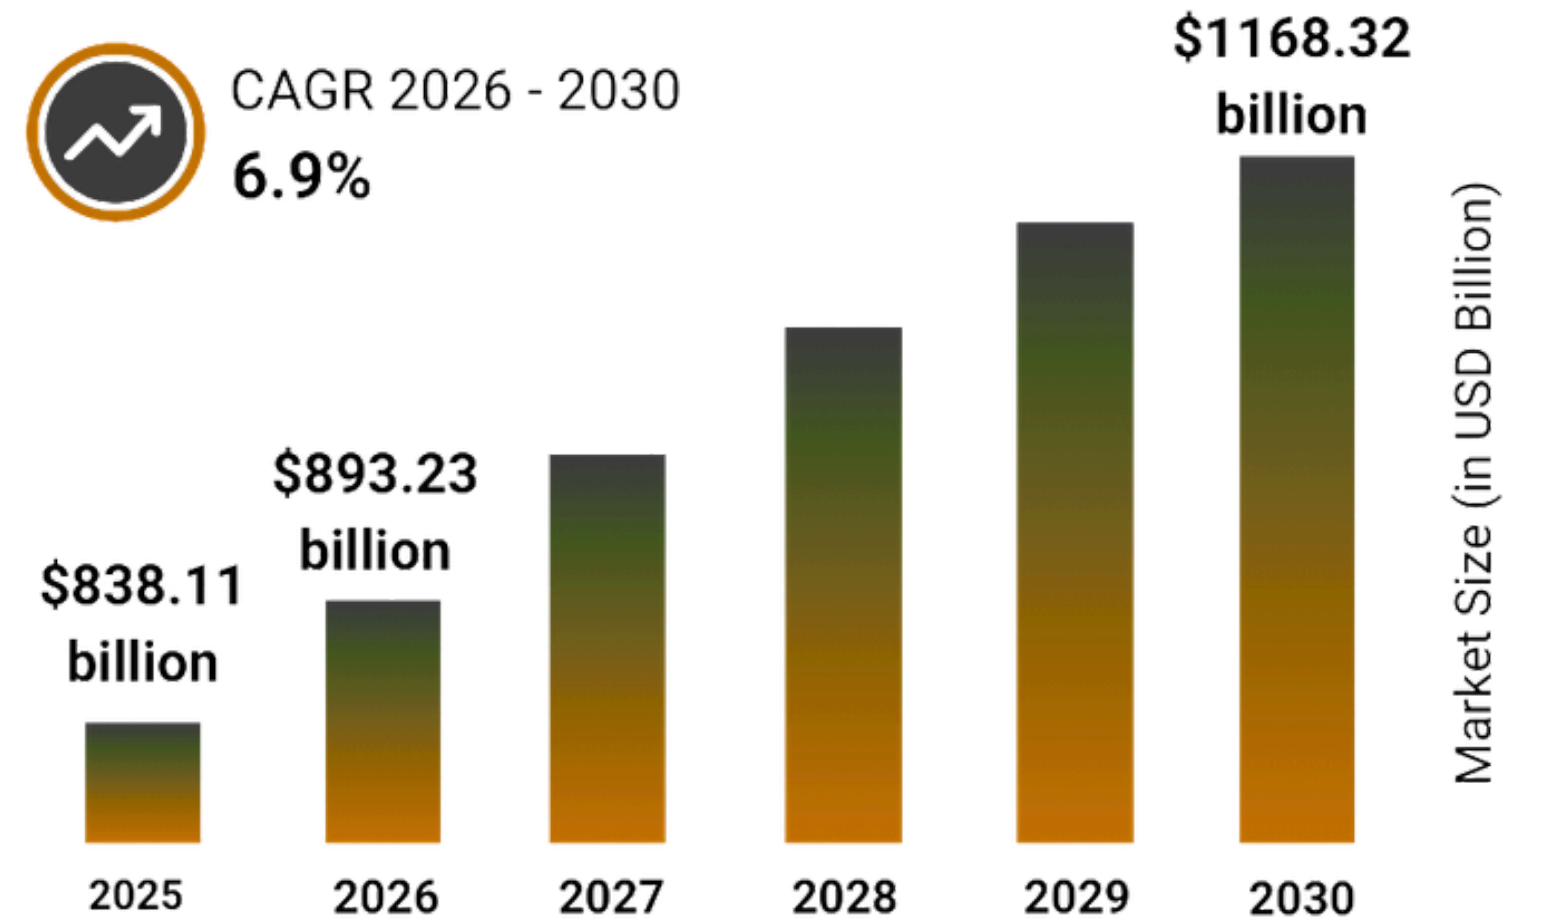

Robust security systems, transparent processes, and strong compliance practices create a reliable trading environment that builds long-term confidence and stability.

▶ Global Market Reach

Wide access to Forex, stocks, commodities, crypto, and indices allows traders to diversify strategies and participate in multiple global markets from a single platform.

FOREX MARKET

The global foreign exchange market continues to expand due to growing cross-border trade, digital trading platforms, and higher institutional participation. Market size is projected to increase from \$838.11 billion in 2025 to \$1,168.32 billion by 2030, reflecting steady demand for currency trading, liquidity, and risk-management services worldwide.

2025-2026

The forex market grew from \$838.11B in 2025 to \$893.23B in 2026, supported by strong global trade and capital flows.

2027-2028

Between 2027 and 2028, the market continued expanding as electronic trading adoption and global transactions increased.

2029-2030

By 2030, the market is expected to reach \$1,168.32B, driven by digital finance growth and rising currency volatility.

WHY FOREX LEADS GLOBAL TRADING

Access Global Market

Forex operates 24 hours across major financial centers, allowing traders to participate in markets at any time globally.

High Liquidity Market

The forex market is the most liquid financial market, enabling faster trade execution and tighter spreads for traders.

Flexible Trading Hours

With continuous weekday trading, forex offers flexibility for individuals to trade alongside work or other commitments.

TRADE DIGITAL ASSETS

► Leverage Opportunities

Trade leading cryptocurrencies through CFDs and gain full market exposure without owning digital assets. Leverage allows participation with a smaller initial amount, while advanced tools support strategy execution. Market volatility creates opportunities, though careful risk management remains essential.

► 24/7 Market Access

Access crypto markets seven days a week and trade popular assets such as Bitcoin, Ethereum, Litecoin, Ripple, Solana, and more. Extended market hours enable traders to react to price movements anytime, supporting continuous participation in fast-moving digital markets.

TRADE COMMODITIES

► Profit in Any Direction

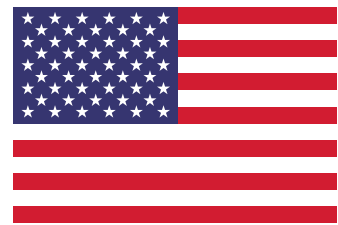

Commodity CFD trading allows you to go long or short, benefiting from both rising and falling prices. With leverage, you can access larger market exposure using a smaller initial amount, while understanding that increased leverage also increases potential risk.

► Flexible Contract Types

Trade popular commodities using both spot and futures contracts through CFDs. This flexibility allows participation in short-term price movements or longer-term market trends across assets like gold, oil, silver, and natural gas, using strategies aligned with market conditions.

MARKET PARTICIPANTS

1

Professional Traders

Experienced investors, institutional investors, or professional trading firms engage in CFD trading to generate profits. They may utilize strategies like technical analysis, fundamental analysis, and quantitative trading

2

Brokers

Intermediaries connecting individual investors with the market, providing trading platforms, executing trades, offering market information, and customer service. Brokers profit from trading commissions and spreads.

3

Market Makers

Institutions providing CFDs liquidity by offering bid and ask prices in the market, ensuring liquidity and price rationality. Market makers can be brokers, banks, or other financial institutions.

4

Regulatory Authorities

Responsible for overseeing and regulating the CFDs market, ensuring fair, transparent, and compliant operations to protect investor interests and maintain financial market stability.

FINANCIAL REGULATORY AUTHORITIES

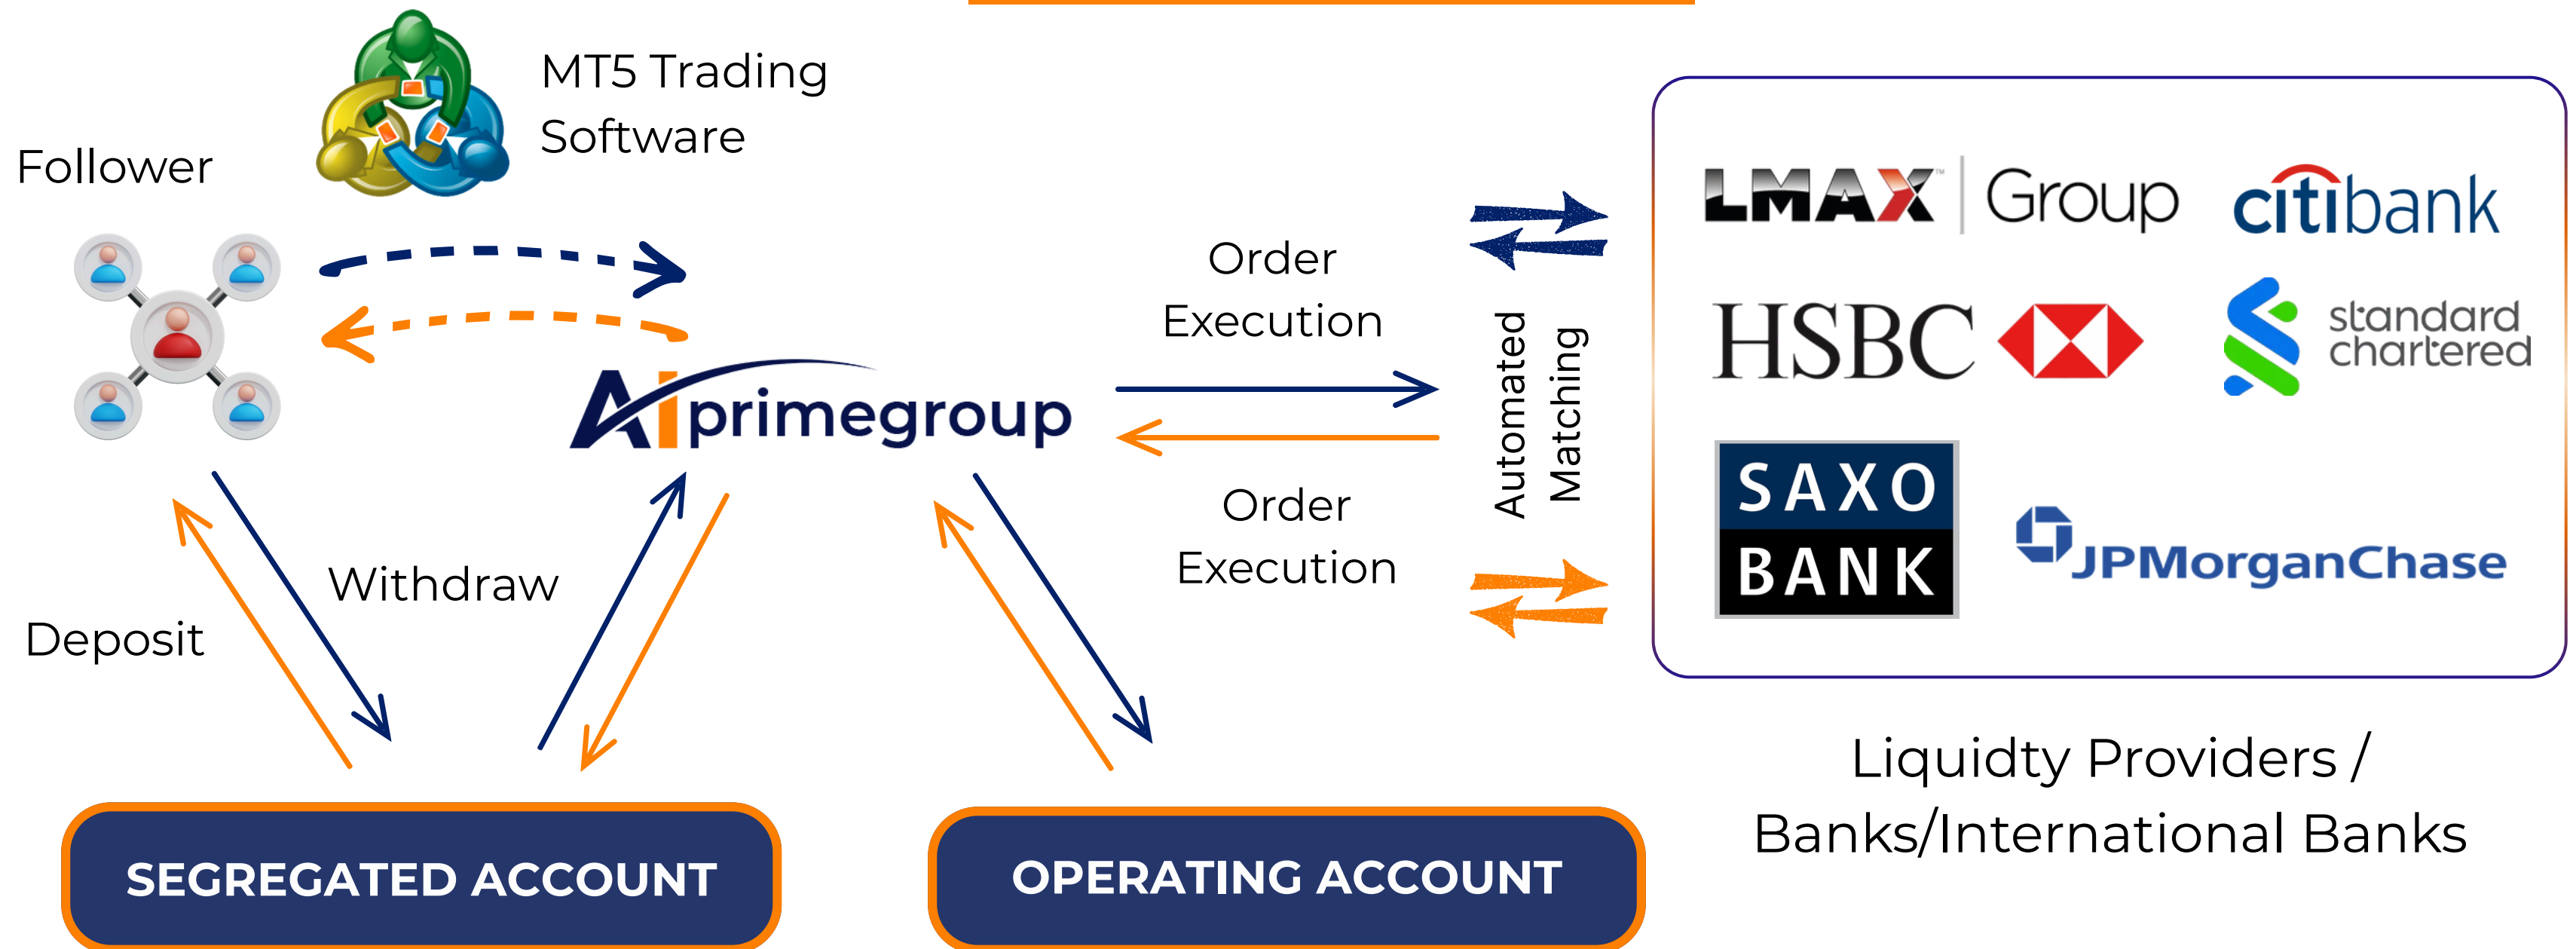

► United States FINCEN

"MSB" stands for "Money Services Business." It covers businesses or individuals engaged in currency services in the United States, including but not limited to money transfers, currency exchange, issuance of money orders, and traveler's checks services. These businesses typically involve handling, transmitting, or exchanging currency, hence the need for regulation to prevent financial crimes and money laundering activities.

FINCEN is a bureau of the U.S. Department of the Treasury responsible for regulating and enforcing anti-money laundering (AML) and countering the financing of terrorism (CFT) regulations in the United States. Institutions engaged in money services business, especially MSBs, must comply with a range of regulatory requirements, including reporting large transactions, customer identification, etc., to ensure that these services are not used for illegal purposes.

MARKET INFRASTRUCTURE

► **Complete Fund Isolation:** Clients Have Full Control, Effectively Guarding Against Hackers and Software Risks.

INVESTMENT PACKAGES

AI PRIME GROUP offers flexible investment packages designed to suit traders with different capital levels and risk preferences. Each package provides access to live trading, competitive daily profit ranges, and a transparent profit-sharing model, ensuring clarity, stability, and structured growth opportunities for clients.

AFFILIATION PLAN

AI PRIME GROUP offers a structured level income system that rewards members for building and supporting a strong referral network. As participants introduce new members, they gain access to multi-level earning opportunities based on their network's trading activity.

Each level becomes active once the required number of direct referrals is achieved, ensuring fair and performance-based growth. This model encourages long-term engagement, teamwork, and consistent expansion while maintaining a balanced and transparent income structure for all participants.

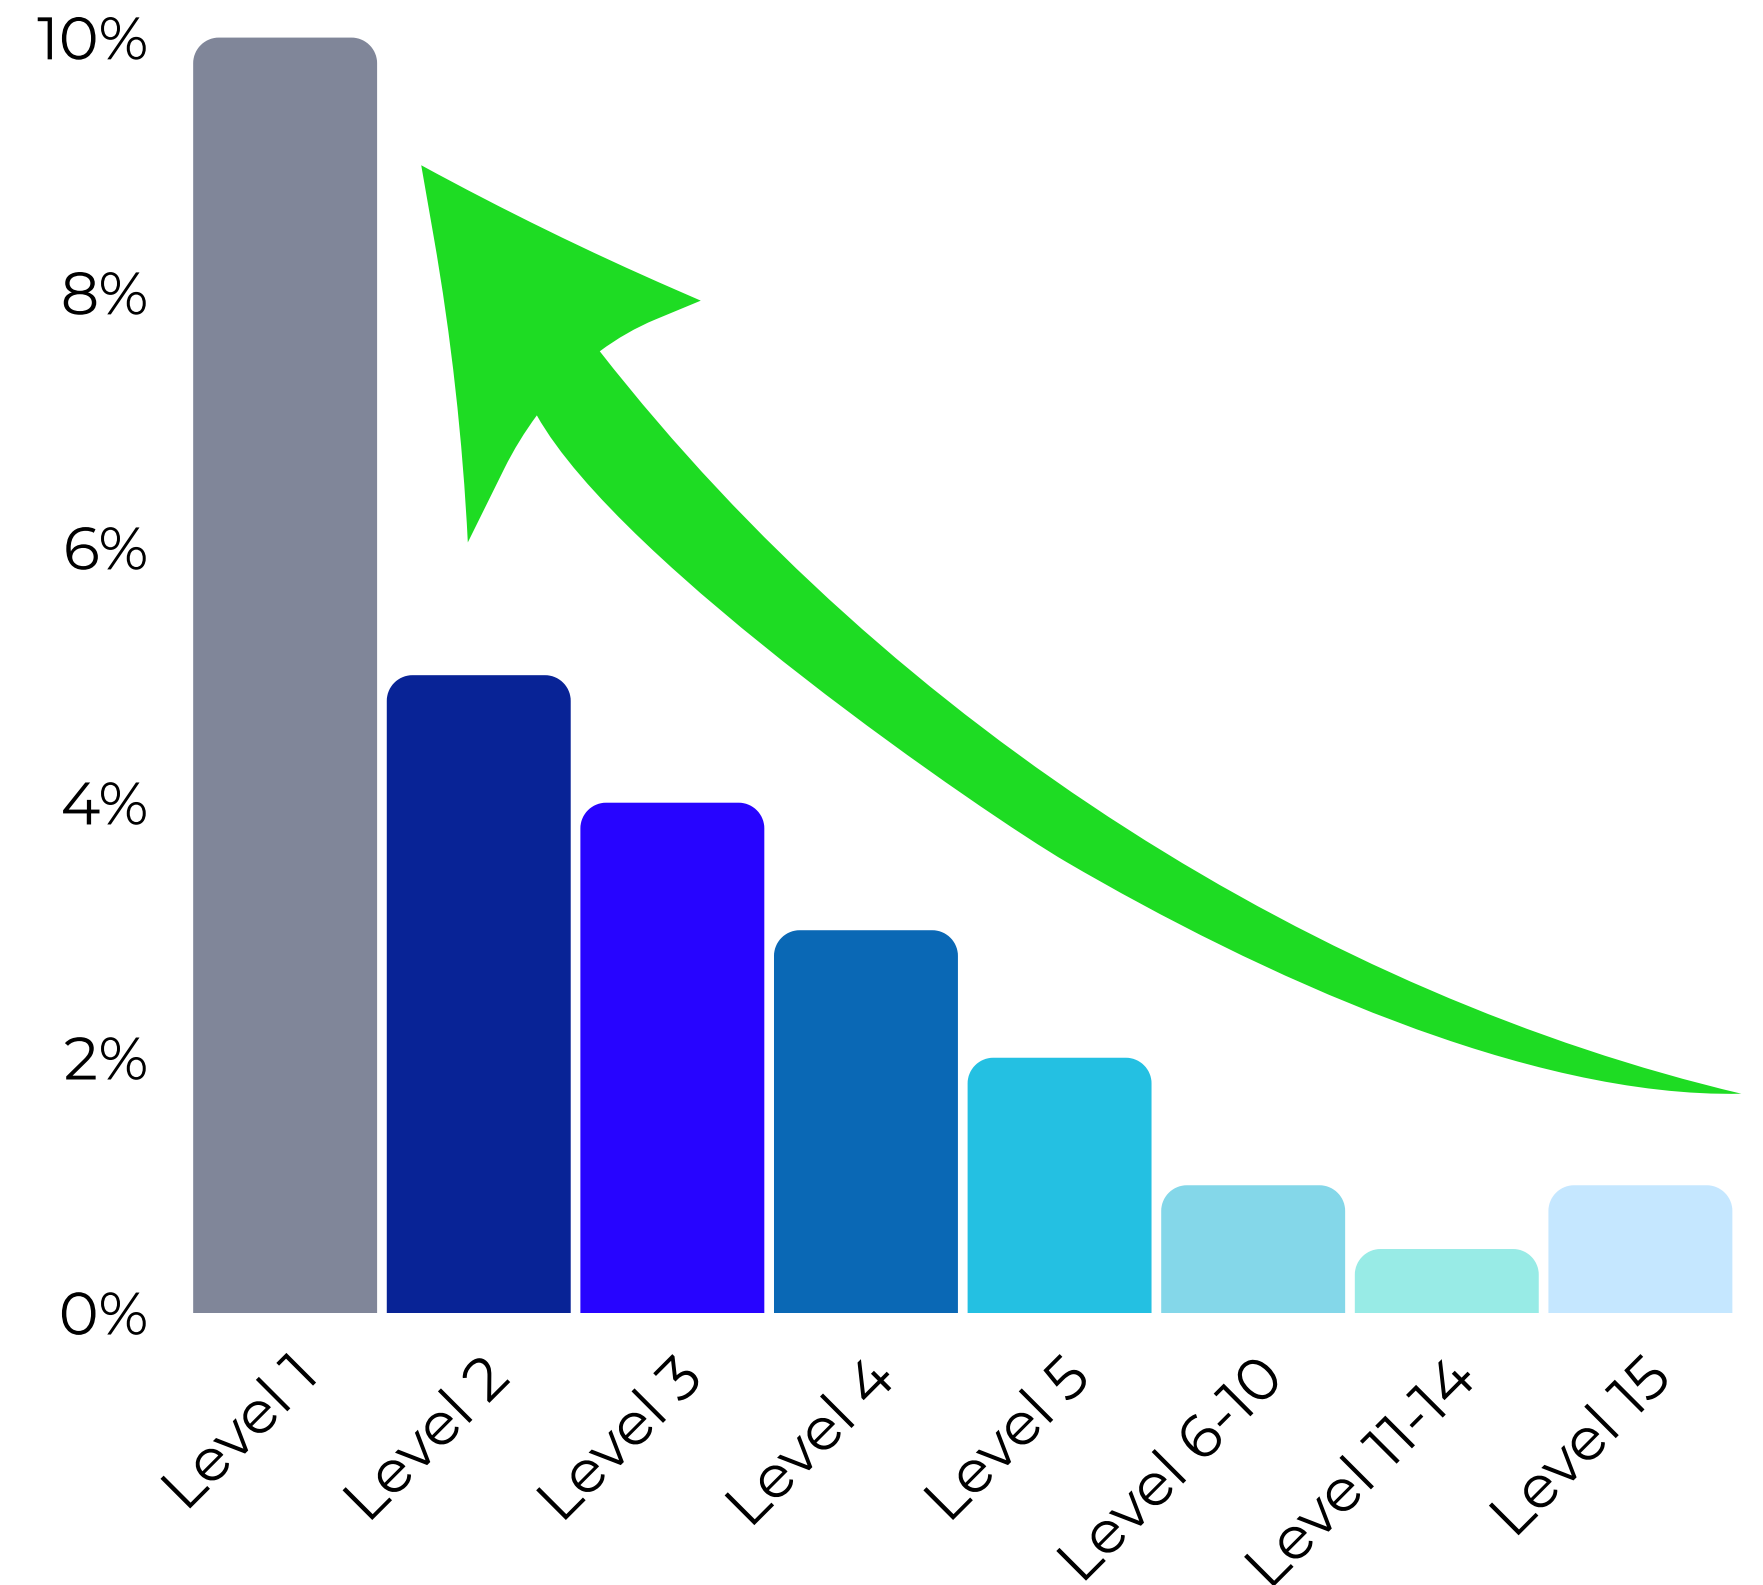

Note :

- Non-working Limit: 2X
- Working Limit: 5X

Level	Level Opening Criteria
Level 1	1 Direct Referral
Level 2	2 Direct Referral
Level 3	3 Direct Referral
Level 4 & 5	4 Direct Referral on Each Level
Level 6	6 Direct Referral
Level 7	7 Direct Referral
Level 8 & 9	8 Direct Referral on Each Level
Level 12	9 Direct Referral
Level 13	11 Direct Referral
Level 14 & 15	12 Direct Referral on Each Level

AFFILIATION PLAN: INCOME STRUCTURE

Level 1 : 10%	Level 2 : 5%
Level 3 : 4%	Level 4 : 3%
Level 5 : 2%	Level 6-10 : 1% on Each Level
Level 11-14 : 0.50% on Each Level	Level 15 : 1%

RANK INCOME

At AI Prime Groups, we believe hard work deserves recognition. Our Incentive Plan is designed to reward your dedication with exclusive trips, commissions, and exciting milestones.

The more you achieve, the greater the rewards — motivating you to reach new heights while enjoying unforgettable experiences.

Note :

- 40:60 Volume Ratio Rule: To qualify for each rank, your team must generate the total volume with 40% from the strong leg and at least 60% from the weak leg.
